

## CHRISTIAN SCIENCE HEALING'S SUBJECT OF FIRST LECTURE

The first of the series of lectures on the subject of Christian Science to be given under the auspices of the local Christian Science churches this season was delivered at Poll's Theater yesterday afternoon by Prof. H. H. Herring, a member of the board of lecturership of the First Church of Christ, Scientist, in Boston, Mass. The speaker was introduced to the large audience by Arthur L. Hitchcock, first reader of First Church, under whose immediate auspices this lecture was given.

Prof. Herring is a most convincing speaker and held the closest attention throughout his remarks, which were devoted especially to the science of Christian healing.

Among other things Prof. Herring said:

"Christ Jesus, the great physician, the divine healer, has for all time set the standard of perfect healing before humanity, and that many do not yet believe in His power is due from a lack of understanding of the true nature and philosophy of the so-called miracles which He performed. His ethical teachings are very generally accepted even by agnostics; although the spiritual records of the healing work as a part of His divine mission meet with dissent from many of the cultured people of today.

Proof Available.

The fact that Christian Science heals can readily be determined by any sincere investigator, and the supporting evidence reveals its coincidence with spiritual healing, thus proving this healing to be true and verifiable today and establishing the fact that Christian Science is Messianic.

"According to Scriptural accounts the healing wrought by the Master and His disciples was accomplished through mental or spiritual means alone, thus through some action of thought Christian Science healing is brought about in the same way. In both the healing principle and law are mental, and we are thus led to examine into the nature of mind and mind action.

"Christian Science teaches that mind is that which thinks, that which expresses itself in ideas, intelligence, consciousness. Thus it is the basis of all manifestation, the principle and intelligence of the universe. It discloses that mind is infinite and that mind and its ideas constitute all being. Mind is that which manifests and that which is manifested. Thus it is truth or actuality, and there can be no place where truth is not. In fully means without limitation on the boundary without quantitative dimensions.

False Concept of Mind.

"Christian Science shows that the so-called mind which is the basis of belief in evil, matter, and disease, is not real mind, but a false concept of mind, the Adam dream, which St. Paul terms 'the carnal mind which is enmity against God.' In 'other words, God's' unlikeliness or opposite. This carnal mind Christian Science further defines as mortal mind, since it includes all that is sick, sinning, disordered, and mortal.

The healing work is accomplished in the human mind by bringing about a change of consciousness wherein lies the belief in evil, which has to be corrected. This human mind is that quality of consciousness which embraces error and yet which can begin to know divine Truth. It is the plane on which the real can reach the unreal. It is a kind of clearing house where error can be known, where error can be corrected, and where harmony can be established. It is a transitional stage of experience in which transformation takes place, through the renewal of the mind. It is an imperfect consciousness, still influenced by the carnal mind, but one to which the saving Christ can come, healing it of its erroneous beliefs and renewing it with the mind of Christ. Mortal mind or the carnal mind is wholly evil, and the human mind, although containing much error, possesses also some good.

Gratitude Is Natural.

"The love and gratitude which Christian Scientists feel toward Christ Eddy is not the result of when one takes into account the great good which has come into their lives as the result of her teachings.

"The wholehearted indebtedness to her for her scientific and spiritual interpretation of the Bible, especially the words and works of the Master, and for her demonstration of the truth of her teachings, is the basis of the so-called higher criticism and the doubt respecting the correctness of much Scripture teaching and the possibility of obeying Christ Jesus' commands. Mrs. Eddy's proof that the Bible is true stands out as the greatest, most significant achievement of this age, for hereby the truth of Christianity and the righteousness of its basis is scientifically established.

Found Creed in Bible.

"Mrs. Eddy early learned that the Bible is the Word of God, the spiritual teacher of the ages. She turned to it for light and leading when human ways and means failed to give health and hope. In its inspired pages she found Christian Science, the spiritual fulfillment of Jesus' teachings and practice, and she thus rediscovered the science of Christianity.

Mrs. Herring will speak again tonight at 8 o'clock at the office of the First Church of Christ, Scientist, Columbia road and Euclid street, when he will be introduced by Mrs. Maud Talcott, the second reader.

SOCIETY SUFFERS IN SUMMER.

Probably there is nothing more annoying to a refined woman than offensive perspiration on her skin. These of late have been very much experienced in the experience of Dr. M. E. Chastier, Faculté de Paris, France.

Dr. Chastier uses a sponge bath made of 1 oz. Tress's Antiseptic Powder in one gallon of water as preventive and cure. He finds the powder to be a deodorizer and stimulant of the skin and an alleviator of pain. Two teaspoonfuls of the pure powder in a can of water gave him excellent results in a case of Pilon's disease of the foot, and he had failed. Similar happy effects were obtained from the use of the same strength solution in Eczema.

The tender skin of a child is exceptionally sensitive to heat. Tress's Antiseptic Powder used either dry, mixed with talcum powder, or as a sponge bath gives the little one comfort from all such painful afflictions.

The doctor further suggests to soothe the use of Tress's Powder instead of poisonous talcum, carbolic acid, peroxide, etc., as it is in every way more agreeable and the results accompanying its use are much to be preferred to the dangerous and disagreeable agents now in use.

It is sold in packages at 5c, 10c and \$1 by the manufacturer.

## PASTORS ROUSE BIG AUDIENCES TO PATRIOTIC FERVOR

In every section of Washington today the current of patriotism is running stronger as a result of the war sermons of yesterday and last night from the pulpits of every denomination came messages of patriotism and calls to uphold the righteousness of the allied cause. The Kaiser and Pan-Germanism was attacked in every sermon.

"Either God is dead or Germany is doomed," declared the Rev. James L. Gordon to the throng that packed the First Congregational Church last night. His sermon on "The Secrets of the War" was delivered at both the morning and evening services, and last night he was bitter and unsparring in denouncing the iron hand of autocracy.

Pictures Gravity of Crisis.

At the Wesley Methodist Episcopal Chapel last night the Rev. D. H. Martin brought home to his hearers the need of arousing the United States to the gravity of the war crisis.

"You have got to get the American people angry before they will fight," declared Dr. Martin. He pointed out the necessity for unity in this country and prophesied the awakening of the people when the lists of American slain in coming conflicts are published.

Kaiser Called Murderer.

Declaring the Kaiser to be a murderer, along with his cohorts, the Rev. James Shera Montgomery, pastor of the First Baptist Church, in his sermon on "The Power of Limitation," at the Calvary Methodist Episcopal Church last evening, pronounced the judgment of the whole world on the Hohenzollerns. Mr. Montgomery accorded the highest praise to General Pershing, likening him to the heroes of history and calling him "the man of the hour" for America.

In the lobby of the Y. M. C. A. yesterday afternoon Dr. Montgomery made the address of welcome at the "Soldiers' and Sailors' Union" meeting, his topic, "The Power of Limitation," urged the young men to guard well their spiritual lives.

## GERARD'S BOOK IS BASIS OF SERMON BY LOCAL PASTOR

Ambassador Gerard's book, "My Four Years in Germany," which is being published in Washington exclusively in The Times, is destined to be the classic of war literature, according to the Rev. James L. Gordon, pastor of the First Congregational Church.

Dr. Gordon preached twice yesterday on "Secrets of the Kaiser," basing his sermons largely on Ambassador Gerard's book.

"I think that Ambassador Gerard's book will become a classic in war literature," declared Dr. Gordon in an interview today. "It is the most vivid read of all the 1,400 books on the present war that are now before the reading public.

"Mr. Gerard, as ambassador to Germany, had the finest opportunity of any man in the world to get an accurate inside picture of Germany and the Germans. You would have to go through the whole history of the war to get the gossip—using the word in the higher sense—of nations, and he reveals the fact that is brought to light in the book.

Gives Vivid Picture.

"Mr. Gerard is a sane, normal man, who has not been unbalanced by the trying situations which he has undergone, but who gives us a calm, judicial, and vivid picture of the things as they are. When you read the book you feel as if you were there.

"He is fair even to the enemy. The strict impartiality of the work is striking. Mr. Gerard could go back to Germany after the war without objection, his work is so open, frank, and candid without doing the least injustice to either side. The book is a fair statement of the case, written so that he can look the whole world in the face.

Shows Deprivation.

"One of his most vivid pictures banishes the myth of the accepted happiness of the German working man. Before the publication of 'My Four Years in Germany' we were accustomed to consider the lot of the working class in Germany the most fortunate in the world. Their home life was extolled as the finest of any land. But Ambassador Gerard has shown us that the average German workman stays at home because he can not afford to go anywhere else, and he reveals the startling fact that 55 per cent of the families in Berlin live in one room. That is a terrible state of affairs.

"To my mind, one of the greatest values of the book lies in the intimate pictures of the workings of the Hohenzollern court that Mr. Gerard draws. His reports of conversations of the Kaiser, the Empress, the crown prince, and the leading military figures, such as Von Hindenburg, leave an indelible imprint upon the mind. It is from these reports that we can see the iron hand of autocracy."

# THE CITY'S SOCIAL SIDE

The marriage of Miss Gertrude M. Murphy and Charles W. Plunkett was solemnized this morning at 6 o'clock in St. Paul's Roman Catholic Church, the Rev. Father Kurl officiating. After a wedding trip to New York by water Mr. Plunkett and his bride will make their home in Washington.

## GERMANS ENFORCE GUARD AGAINST REPRISAL RAIDS

LONDON, Oct. 8.—Effective today, penalties will be inflicted if persons in territory occupied by the Germans do not obey the instructions of the police ordering dark curtains at night to prevent the location of towns and cities by allied airplanes in night raids, which are looked for as reprisals for raids by German airmen on England, says an exchange.

Where dark curtains are ordered to be drawn and all blinds must be down at night.

An enterprising insurance company, says an Amsterdam dispatch, is already publishing full page advertisements offering to insure any person or property against injury by air raids.

## CROWDER AND BAKER TO DECIDE SECOND DRAFT

Whether there is to be a second draft at this time probably will be definitely settled tomorrow, when Provost Marshal Crowder and Secretary of War Baker are to have an important conference. There has been persistent talk in Washington for some time about another draft, but War Department officials have declined to discuss the matter.

Valuable lessons have been learned in selecting the men drawn for service in the first draft and whenever another draft is called the experiences gained will be of valuable aid to the various boards.

## SEEK NEW ACID SUPPLY.

The Government is seeking new sources of sulphuric acid supply to meet the needs of war industries. It is estimated that 8,000,000 tons will be needed to meet the needs of the next year, and the available supply is far short of these figures. The Interior Department, the Department of Agriculture, and other Government agencies are working on the problem.
